

Must be the clouds in my eyes • Lord, I miss Daniel • Oh, I miss him so much even though I want to kick him

have died, but you see more than I • Daniel, you're a star in the face of the sky • Oh God, it looks like Daniel •

THE CARTOGRAPHERS

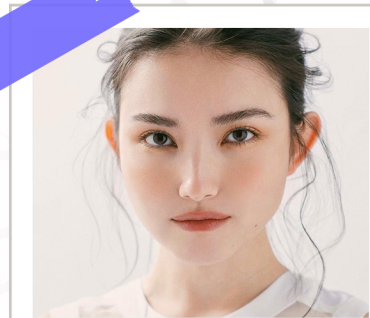

Peng Shepherd

Really thought this was going to be a DNF after *The Book of M* fell flat, only then it turned out to be amazing. I wish the prose were better and I don't think it makes as much sense as Shepherd wants it to make, but I almost don't care. I fucking knew Bear was Humphrey. I **KNEW** it. 100% would be throwing my money at the *Cartographers* if the *Dreamer's Atlas* were real. Love the ending. Still want to kick Daniel.

Question to ask if we ever meet Peng Shepherd:

Literally why didn't the *Cartographers* just call the police before Wally progressed from serial burglar to serial killer. "Because then there wouldn't be a book" is not a good answer.
